

CASE STUDY

uchealth

University of Colorado
Anschutz Medical Campus

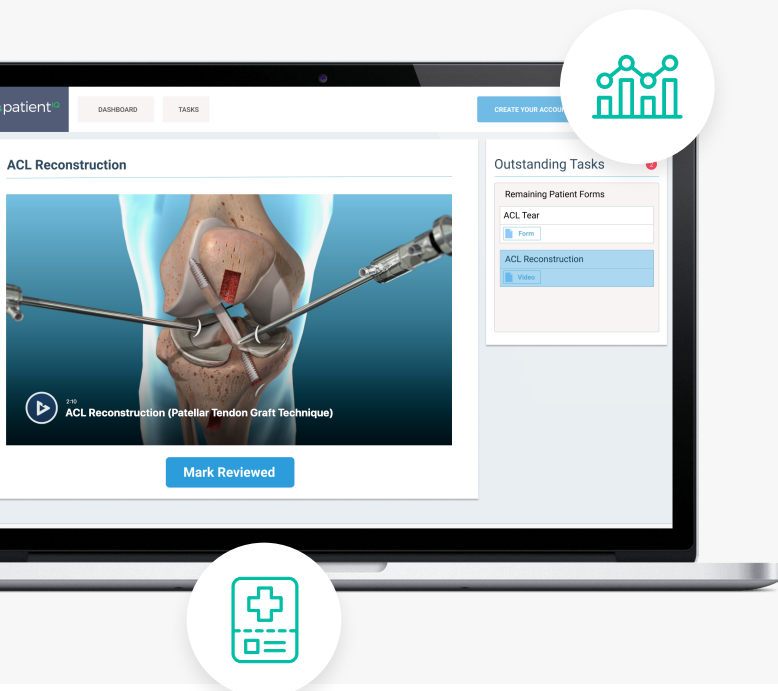

PatientIQ is a platform for healthcare professionals, researchers, and industry partners to collaborate on the mission to improve patient outcomes.

Improve Patient Outcomes

- ✓ Systematically measure outcomes
- ✓ Benchmark patients
- ✓ Generate data-driven alerts
- ✓ Reduce preventable complications

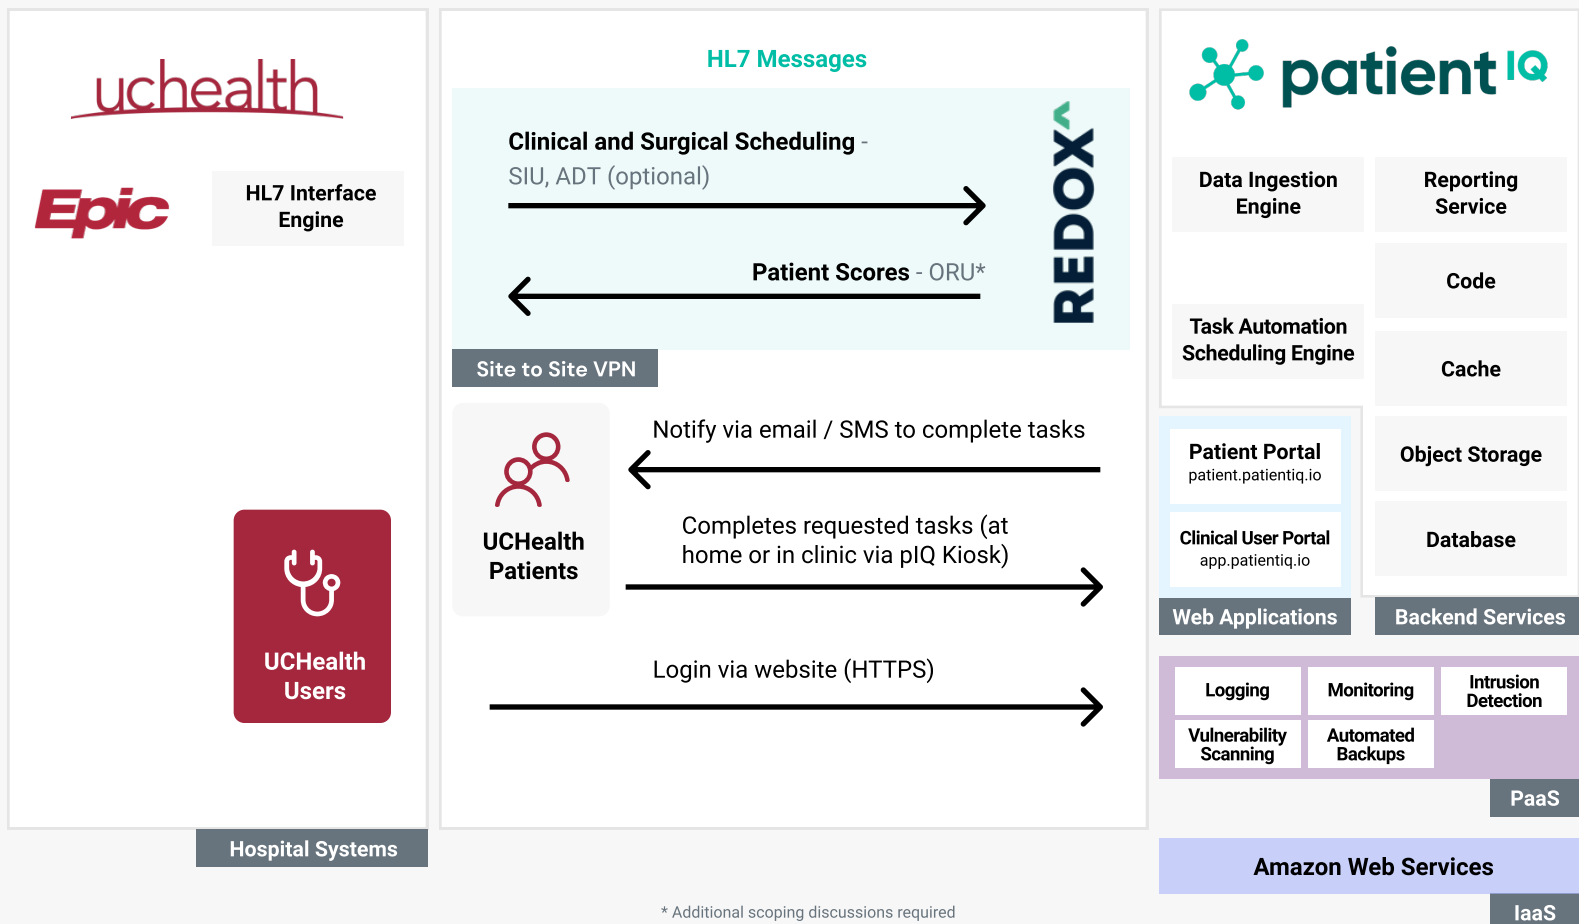

Modernize the Patient Experience

- ✓ Personalized care pathways
- ✓ Digital patient education
- ✓ Smart forms

Customer Goals

- ✓ Automate the collection of patient-reported outcomes on every patient that walks through the door
- ✓ Solidify institution as a Center of Excellence
- ✓ Increase academic output and quality
- ✓ Improve the patient experience using PatientIQ's patient engagement, satisfaction, education and research platform
- ✓ Design long-term solution and integrate PatientIQ into existing Epic workflows

Designing the Solution

* Additional scoping discussions required
